

SAMPLE PROJECT

OneTa Design

By Leila Fatalian

STEP 1: DISCOVERY SESSION

- The client booked their free discovery session to discuss their project and obtain a cost estimate
- This session included a detailed questionnaire to understand their needs, desired changes, lifestyle, and budget

STEP 2: DECIDE SERVICE

- After understanding their needs, we both agreed that our **Full Design** package was the best choice for their project
- Once the service was chosen, we provided a cost estimate for the floor design. With the deposit received, the design project officially began

PROJECT:

The client wanted to brighten up their dining room with colors, make it warm and inviting, yet keep it somewhat formal

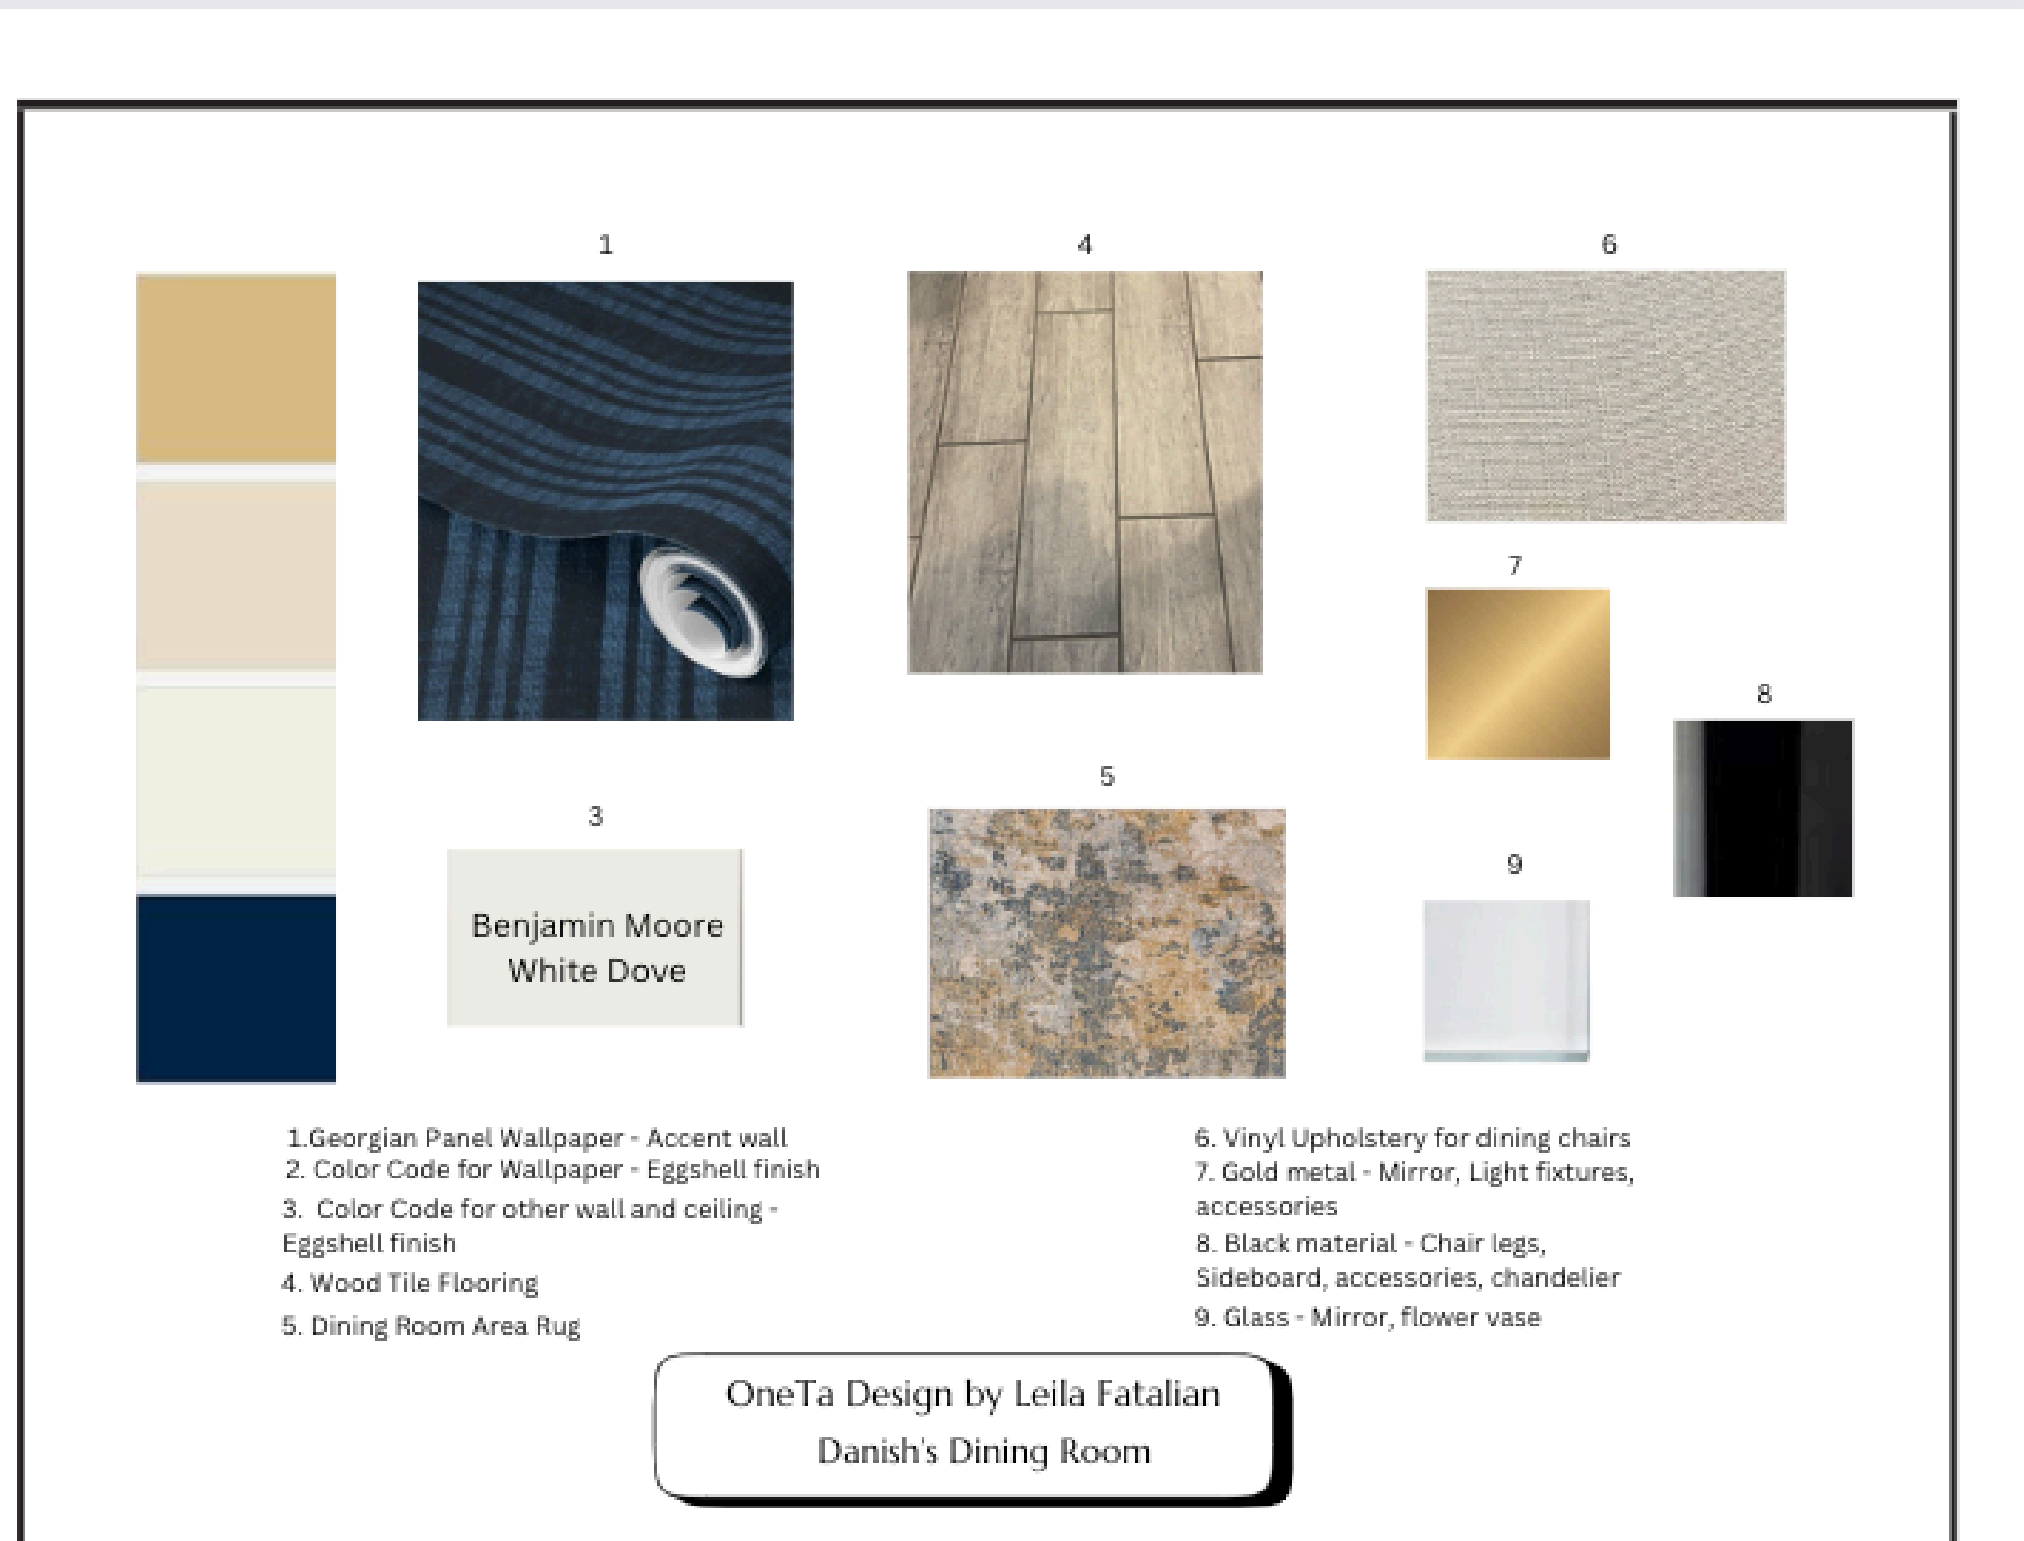

SERVICE: 3D LAYOUT & MOODBOARD

As a key feature of our comprehensive Full Design Service, we offer you a choice between two distinct **3D layouts** and **moodboard** options

This allows you to see the final look of the space before any actual changes are made. By seeing the design upfront, you can make informed decisions about what you like and don't like without making costly decisions

SERVICE: SHOPPING LIST & FLOOR PLAN

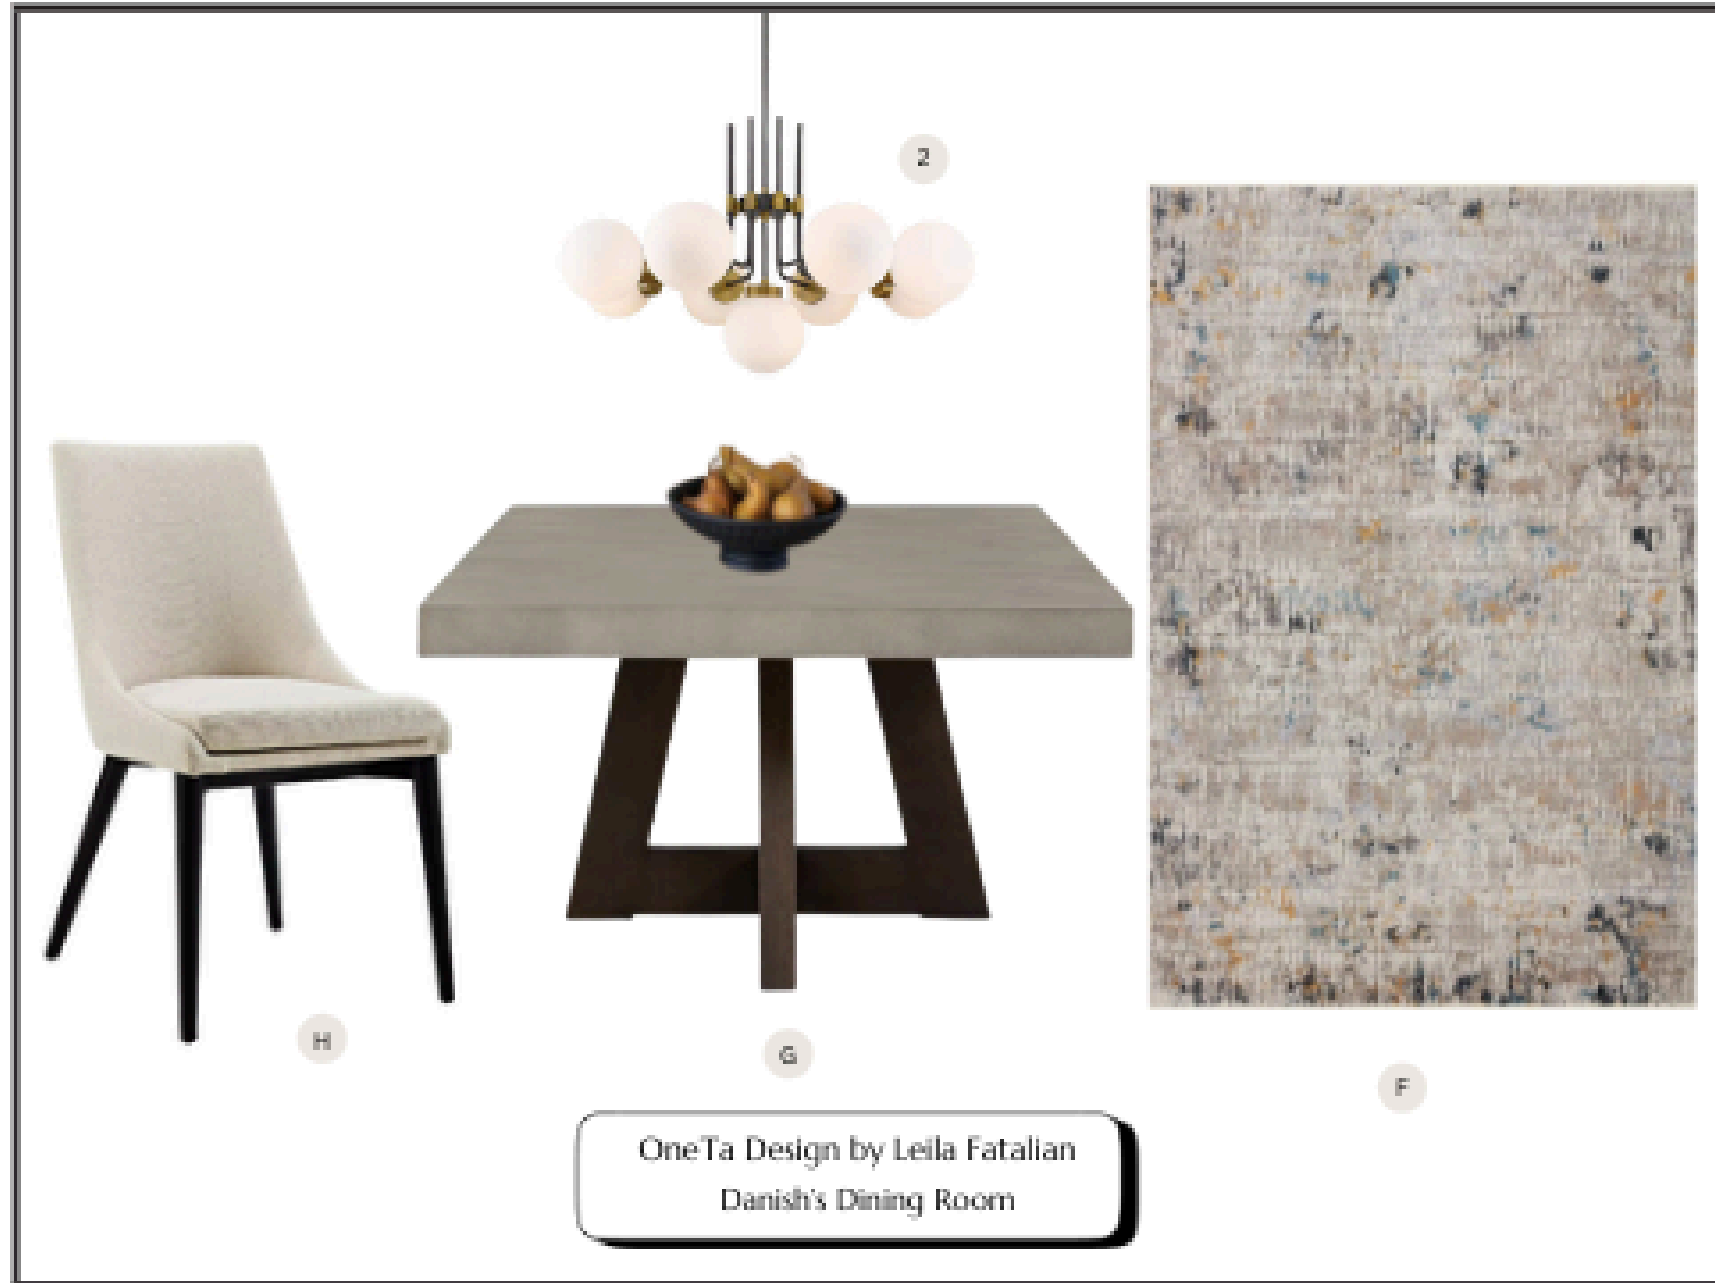

Another key part of our services includes making a comprehensive **shopping list** and providing a **detailed floor plan** for your project

- We have an extensive knowledge of various sources for furnishings and materials. We ensure that each piece contributes to the overall aesthetic of the room
- We often have access to trade discounts and exclusive items that are not available to the general public, which can save you money
- We know which brands offer the best quality for a particular item or which ones might best fit your budget
- Our guidance will prevent you from making costly mistakes in terms of scale, quality, or design suitability, avoiding the need for returns or replacements

CLIENT'S LOVE

OneTa design transformed our entire living area into a sleek, modern and very aesthetically pleasing home. Leila's attention to detail and sense of style and color is remarkable.

She was able to design a floor plan that tied our preferences and lifestyle needs to her vision of a very elegant yet welcoming interior.

The 3D floor plan and walkthrough set the tone for our project as we were able to visualize the transformation even before we purchased anything.

During the implementation phase, Leila presented the furniture and decor choices in a very clear and organized format which helped us keep track of all our orders and even our budget..

The construction dates and furniture setup etc. were coordinated by her very efficiently. It was like having our own project manager.

The most surprising aspect of the project was how Leila added color and highlights to our living space using just a few tasteful decorations and the addition of accent lighting.

We would have never thought what a big difference proper lighting makes to a room.

The small fraction of the overall project cost we spent on the designer was worth every penny. Every morning we come out of our bedroom and see our home, we smile
